## ELLE LED

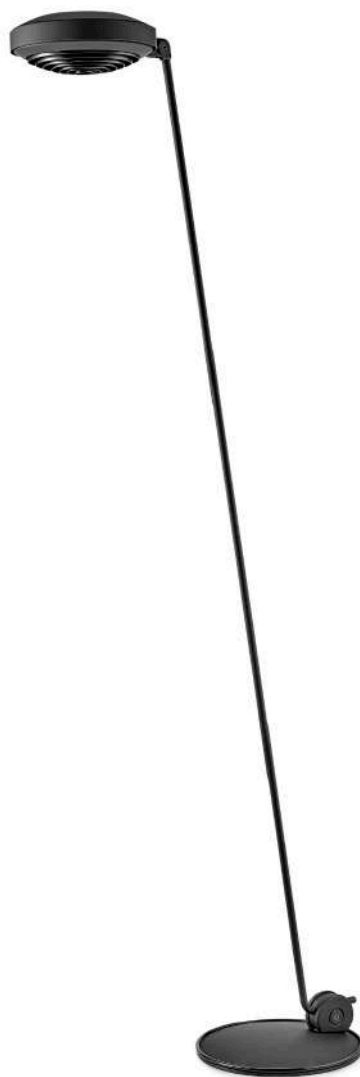

### /TOMMASO CIMINI

Elle is a series of direct and diffused light floor lamps designed by the founder, Tommaso Cimini, in 1984. It was the second project he worked on, straight after creating the masterpiece that is the Daphne.

With their minimalist design and powerful and adjustable light, these lamps are the perfect expression of Lumina's philosophy: "lots of light with not much lamp".

The Elle family has two versions: **single arm and double arm.**

Both lamps are characterized by a jointed arm, a swivelling reflector and a special anti-glare grid.

With the advent of the latest LED technologies, Lumina decided to renew its classic halogen version whilst retaining the original forms and dimensions.

By working on the lamp head and redesigning the optics and heat sink, the lamp has been given a double LED with a total of 45 W (a 25W LED for direct light + a 20W LED for indirect light), thus guaranteeing a powerful luminous flux and limited consumption.

Thanks to the new dissipation technology adopted by Lumina, the heat emitted by the head when the lamp is on is practically zero, so it's possible to direct the light by simply tilting the head.

In terms of illumination and glare, the Elle lamp is also well suited for use in work spaces with video terminals ( $UGR < 19$ ).

The LED Elle's biggest advantage is the extreme uniformity of its light, whether direct or indirect, the latter reducing shadows and contrasts.

There is a choice of two colour temperatures (2700K or 3000K) using two high-performance COB LEDs for very high colour rendering ( $CRI = 97$ ).

# FINISHES

To widen the range of colours of the iconic ELLE lamp beyond the finishes already in the catalogue (Soft-Touch Black, Matt White, Brushed Nickel and Metallic Bronze) we decided to add special **tone-on-tone** versions that differ from the standard ones in that the colour of the anti-glare grid is identical to the body of the lamp.

And in response to market demand we also decided to add two new colours to complete the range: **"Roma" Red** and **"Zaffiro" Blue**, both matt.

# Elle 1 LED

designTommaso Cimini, 1984

Floor lamp for direct and indirect lighting with single pivotable arm. The head can rotate 180° and is provided with a screen grid for glare control. Equipped with a foot on-off and dimmer switch.

### Light emission

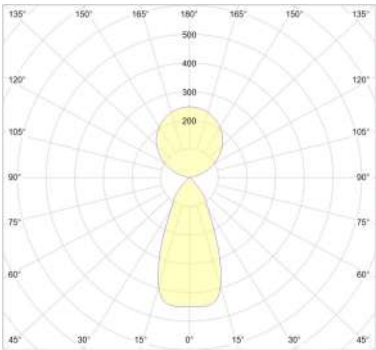

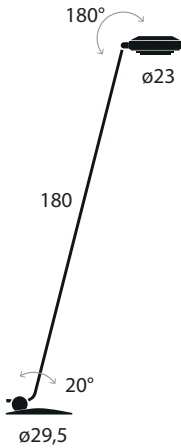

- Light emission: diffuse
- Light direction: downlight, uplight
- Light source: 2 led boards
- Source flux: 3980 lm
- Emitted flux: 2346 lm
- Efficacy: 49 lm/W
- UGR: < 19
- CCT: 3000K
- CRI index: 97
- Lifetime: >55000h L80 @ 25°C

### Electrical Facts

- Source power: 45 W
- Power absorbtion: 48 W
- Stand-by absorbtion: < 1 W
- Grid voltage: 100-240V AC/50-60 Hz (EU/UK plug equipped)
- Power supply: internal AC-DC converter provided
- Dimmability: on-wire foot dimmer switch
- Energy class: A++

### Technical data

- Environment: indoor
- Placement: floor
- Net weight: 6,8 Kg
- Certifications: CE
- Suggested ambient T: 25°C
- Maximum ambient T: 40°C
- Insulation class: II
- Protection class: IP20
